### **Subject Matter/Background**

The last time the city carried out a water rate study was 2007, and implemented the last water rate increase in January of 2008. This current study brought many options from very passive to very aggressive, and many options in between. Over the 14 years since the last increase operating expenses have risen, many capital projects have been undertaken and general maintenance of the system costs have increased year on year. The city, due to a well managed water fund and additional sales of water have managed to keep water rates static. Unfortunately, this is no longer possible. If we stayed at the rates we currently charge, the water fund would be operating at a NET loss by 2025, and the fund itself would be in the red by 2028. This obviously is not sustainable.

The water rate study was presented to the utilities committee, and they voted to recommend options 3a and then 4 to Council. The study was then presented to the Finance Committee and they voted to recommend options 4 and then 3a to Council. The study was then presented to Council at a work session and Council directed staff to proceed with option 4, which is a 5% increase over 10 years, and a one time 3% increase to our high volume customers. The water fund will be managed on a constant basis, and a new water rate study carried out every three years to ensure rates are kept as low as possible while still ensuring the water fund is sustainable.

Other modifications contained within are repealing minimal charges for sprinkler systems. Repealing charges for Tank water sales as we no longer offer this service. Amending the wording of the section that refers to multiple units supplied by a single meter to remove vagueness and clarify existing processes.

### **Financial Review**

The new water rate ordinance, if approved, will allow for the City to proceed with needed capital and maintenance of the City's water infrastructure, per the water rate study. The City's water utility funds (602, 603, and 604) will generate more revenue and allocate more budget specifically to capital projects and debt liabilities over the next 10 years.

### **Legal Review**

The matter has been reviewed, follows normal legislative procedure and is properly before you.

### **Recommendation**

If Council is in agreement with the request, a motion adopting Ordinance No. 2022-55 is in order.

### **Subject Matter/Background**

This resolution authorizes a one-year renewal of the Agreement previously executed with the Erie County Sheriff's Office for the provision of emergency dispatch services. This is an automatic renewal under the same terms and conditions unless either party gives at least 60 days' notice to terminate.

### **History**

The City's dispatch services began to transition to the Erie County Sheriff's Office in 2009 with the utilization of county dispatch during the 11:00pm-7:00am shifts. In 2012, the City formalized a two-year regionalized dispatch agreement with the Erie County Sheriff's Office for 24-hour coverage. Since that date, the Chief of Police and Fire Captains have serviced on the Regional Advisory Board as the City's representatives. The current agreement is set to renew automatically per its terms unless either party give at least 60 days' notice to terminate.

### **Service Cost for Prior Years**

2018 \$ 36,150  
2019 - \$ 43,964  
2020 - \$ 47,670  
2021 - \$ 67,000  
2022 - \$102,131

Although there was a significant increase in 2021, and that same cost is carried forward to 2023, the agreement solidifies the same level of service at a modest cost compared to housing the dispatch unit with the City. Per the agreement, the Erie County Sheriff's Office will continue to provide emergency dispatching services for both branches of the City's safety forces utilizing County employees. The annual fee for services rendered shall not exceed \$102,130.82.

### **Financial Review**

The annual financials are included above. The city can expect no changes to the 2023 budget for dispatch services. The General Fund (78%) and Fire Levy Fund (22%) bear the cost of this service.

### **Legal Review**

The matter has been reviewed, follows normal administrative procedure and is properly before you.

### **Recommendation**

If Council is in agreement with the request, a motion adopting Resolution No. 95-2022 is in order.

### **Subject Matter/Background**

Currently the service complex has 12ft x 12ft overhead doors. These doors have been kept in operation by staff well past their useful life. The damage caused by rust and general wear and tear is at a point where they can no longer be repaired. Added to this, this 12x12 configuration is no longer big enough to allow all of our vehicles to enter the garage. This project proposes expanding the opening to 12ft wide x 14ft high to allow our larger vehicles to access the interior storage and prevent them from needing to be stored outside. This will also include two new doors and the relocation of some utilities to allow for the enlargement. Three contractors walked the site to generate quotes, two responded with pricing, and AV Lake was the cheapest and best option.

### **Financial Review**

The cost of this project was included in the 2022 budget and will be split 50/50 between the Streets budget (Fund 212) and Water Distribution (Fund 604).

Total Cost = \$28,087.68

### **Legal Review**

The matter has been reviewed, follows normal administrative procedure and is properly before you.

### **Recommendation**

If Council is in agreement with the request, a motion adopting Resolution No. 96-2022 is in order.
