Crack Sealing	For cracksealing Main St from south of railroad tracks south to Riverside Dr. Excludes section that was already cracksealed earlier this year. Sealing structural cracks (1/4" wide) is the primary focus. Areas such has potholes, alligator cracks, or wide cracks (larger than 1.5 inches wide) should be avoided. These areas should be monitored for asphalt replacement. Note: One unit or box will fill about 150-200 feet of crack.	225	$80.00	$18,000.00*
Crack Sealing	For cracksealing Bogart Rd from Main St. west to city limits (new pavement).	225	$80.00	$18,000.00*
Crack Sealing	Estimates are an "allowance" of 150 boxes on Main St and 225 boxes on Bogart Rd. The amount of fracturing in the pavement makes it difficult to predict how much material will actually be used. MSNOH will bill for actual amount of material used. MSNOH can install additional material upon customer request and approval.
